

MANIKANTA SILLA

Senior Java Full Stack Developer

+1 (901) 468-6937 | manikanta.silla@outlook.com | Franklin, TN

CAREER SUMMARY

Senior Java Full Stack Developer with 9+ years of experience designing and delivering high-performance enterprise applications using Java, Spring Boot, and microservices architecture. Strong expertise in cloud platforms (AWS, Azure), containerization (Docker, Kubernetes), and CI/CD automation.

EXPERTISE

Microservices Architecture & API Development | Cloud Platforms (AWS, Azure) | CI/CD Pipeline Automation | Distributed Systems & Messaging (Kafka, JMS) | Full Stack Development (Angular, React, Node.js) | Application Modernization & Migration | Agile/Scrum Methodology

TECHNICAL SKILLS

Languages: Java, SQL, JavaScript | **Frameworks:** Spring Boot, Hibernate, REST APIs | **Databases:** MySQL, Oracle, MongoDB, Cassandra | **Tools:** Docker, Kubernetes, Jenkins, GitHub Actions, Git | **Cloud:** AWS, Azure

PROFESSIONAL EXPERIENCE

SENIOR SOFTWARE ENGINEER | Tennessee Farmers Insurance Companies | Mar 2024 – Present

Design and deliver Spring Boot microservices and APIs supporting insurance business workflows, with a focus on modernization, integration, and delivery automation.

- Developed Spring Boot APIs and integrated external systems to enable secure, reliable data exchange across enterprise applications.
- Modernized legacy applications by upgrading to Java 21 and Spring Boot 3.x, improving maintainability and performance.
- Automated CI/CD pipelines using GitHub Actions to standardize builds, testing, and deployments.

SENIOR JAVA FULL STACK DEVELOPER | Franklin Madison Group | May 2023 – Feb 2024

Built and enhanced full-stack applications using Spring Boot microservices and Angular front ends, with event-driven integrations and modern security controls.

- Designed and implemented microservices using Spring Boot and Kafka to support scalable, decoupled business capabilities.
- Developed UI features using Angular and JavaScript to deliver responsive, user-friendly experiences.
- Implemented authentication and authorization using Spring Security and JWT to protect APIs and web applications.

JAVA FULL STACK DEVELOPER | CSG International | Feb 2021 – Jan 2022

Developed cloud-native services on Azure using Spring Boot, integrating microservices through messaging and RESTful APIs.

- Built cloud-native applications using Azure and Spring Boot, following best practices for resiliency and scalability.
- Integrated Kafka and REST APIs to enable reliable communication between microservices and downstream systems.

JAVA FULL STACK DEVELOPER | Infosys Limited | Mar 2018 – Jan 2021

Delivered enterprise applications using Spring Boot and Angular, contributing to migrations from monoliths to microservices and supporting Agile delivery.

- Developed enterprise applications using Spring Boot and Angular, delivering new features and enhancements across releases.
- Migrated systems to microservices architecture, improving scalability and reducing coupling between components.

JAVA BACKEND DEVELOPER | Tata Consultancy Services | Nov 2015 – Feb 2018

Developed backend services and database solutions using Java and JDBC, supporting system architecture and data access layers for enterprise applications.

- Developed backend applications using Java and JDBC, implementing business logic and integrations.
- Designed system architecture components and database solutions to support performance and reliability requirements.

EDUCATION

MS Information Technology | Cumberland University | 2026 – Till present

MS Data Science | University of Memphis | Jan 2022 – Apr 2023

B. TECH | Mechanical Engineering | JNTU | Jun 2011 – Apr 2015
